

wish it was you - sienna tenn

I met a new guy and he's just like you
Same shy eyes with roses cheeks in bloom
And he knows me the same way I know you
I catch your face in his sometimes too

And I wish it was you

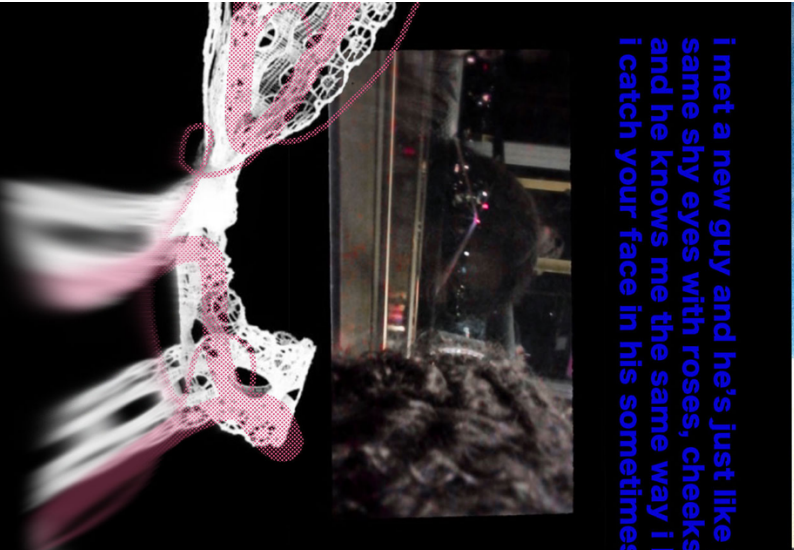

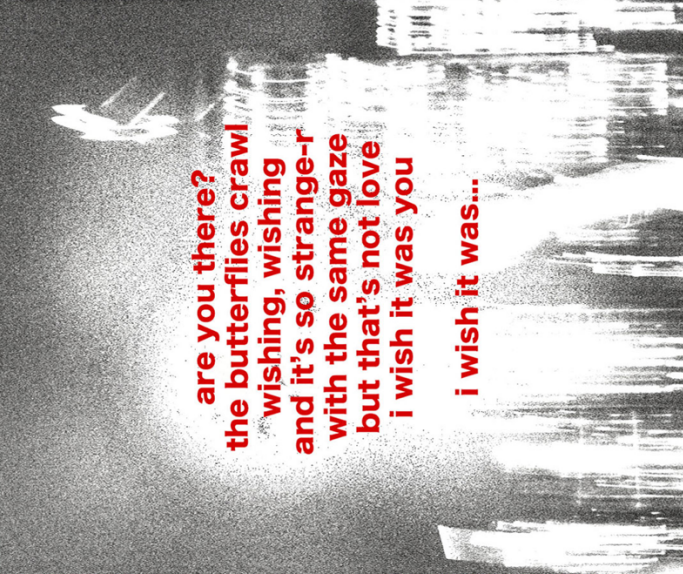

I know that I make mistakes
It seems to be going the same way
It's only been a couple days
But it all feels the same

I met a new guy and he is just like you
Same shy eyes with roses cheeks in bloom
He knows me the same way I know you
I catch his face in yours sometimes too

And I wish it was you

Are you there
The butterflies crawl
Wishing, wishing
And it's so stranger with the same gaze
But that's not love
I wish it was you

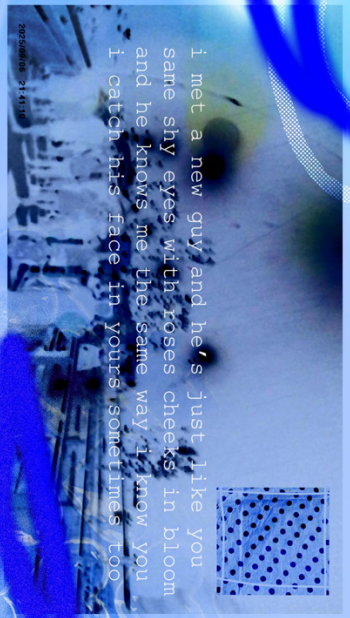

I wish it was

and i wish it was you...

are you there?
the butterflies crawl
wishing, wishing
and it's so strange-r
with the same gaze
but that's not love
i wish it was you
i wish it was...

i met a new guy and he's just like you
same shy eyes with roses, cheeks in bloom
and he knows me the same way i know you
i catch your face in his sometimes too

i know that i make mistakes
it seems to be going the same way
it's only been a couple days
but it all feels the same.
